SECTION 131. The Secretary shall take, compile, and publish censuses of manufactures, of mineral industries, and of other businesses, including the distributive trades, service establishments, and transportation (exclusive of means of transportation for which statistics are required by law to be filed with, and are compiled and published by, a designated regulatory body), in the year 1954 and every fifth year thereafter, and each such census shall relate to the year immediately preceding the taking thereof: Provided, That the censuses of manufactures, of mineral industries, and of other businesses, including the distributive trades and service establishments, directed to be taken in the year 1954 relating to the year 1953, shall be taken instead in the year 1955 relating to year 1954. The censuses provided for in this section shall include the United States and its Territories and such Possessions as the Secretary may determine.

SECTION 224. Whoever, being the owner, official, agent, person in charge, or assistant to the person in charge, of any company, business, institution, establishment, religious body, or organization of any nature whatsoever, neglects or refuses, when requested by the Secretary or other authorized officer or employee of the Department of Commerce or bureau or agency thereof, whether such request be made by registered mail, by telegraph, by visiting representative, or by one or more of these methods, to answer completely and correctly to the best of his knowledge

all questions relating to his company, business, institution, establishment, religious body, or other organization, or to records or statistics in his official custody, contained on any census or other schedule prepared and submitted to him under the authority of this title, shall be fined not more than \$500 or imprisoned not more than sixty days, or both; and if he willfully gives a false answer to any such question, he shall be fined not more than \$10,000 or imprisoned not more than one year, or both.

SECTION 9. (a) Neither the Secretary, nor any other officer or employee of the Department of Commerce or bureau or agency thereof, may . . . .

(1) use the information furnished under the provisions of this title for any purpose other than the statistical purposes for which it is supplied; or

(2) make any publication whereby the data furnished by any particular establishment or individual under this title can be identified; or

# APPENDIX B

## KIND-OF-BUSINESS CLASSIFICATIONS

The Service Division is defined in the 1957 edition of the *SIC Manual*, to include establishments primarily engaged in rendering a wide variety of services to individuals and business establishments. Establishments included in the scope of the Census were assigned a kind-of-business classification in accordance with the provisions of the SIC. However, because in some instances a more detailed classification is required for Census purposes than is available in the *SIC Manual*, additional kinds of business have been identified within the SIC categories.

As noted in the section on "Method of Enumeration," the 1958 Census findings are based on reports from two different sources. "Employer" establishments were canvassed by mail and were required to complete report forms especially designed for this Census. "Nonemployer" establishments, however, were included in the Census on the basis of information supplied on the 1958 Federal income tax report. Because of the nature of the information available on the tax form, the kind-of-business classifications based on that form represent "self-designation." On the Census forms also, considerable use was made of "self-designation." However, for kinds of business which posed classification problems, special questions were included to determine the Census classification. The effect of the two different sources on consistency in classification, as reflected in the measurement of dollar volume of receipts, is minor, as the "nonemployer" establishments account for only about 10 percent of total service trades receipts and it is likely that in most cases the "self-designated" classification would be consistent with that derived from more comprehensive information.

The material which follows describes the kinds of business for which separate information is provided in this report.

### Hotels, Motels, Tourist Courts, Camps (SIC Major Group 70, Except 702 and 704)

This group consists of establishments engaged in providing lodging or lodging and meals to the general public except (1) rooming and boarding houses, (2) hotels which provide accommodations only for "permanent" residents, and (3) tourist homes. Apartment or residential hotels which provide accommodations for transients have been included in the Census.

A review conducted prior to the 1958 Census, of records of the BOASI for the real estate industry in Hawaii resulted in the shift of a number of relatively small establishments from the "real estate" to the "hotel" category. While this shift significantly affected the count of hotels, as compared to 1954 Census findings, it had only a minor effect on the comparability of total receipts data.

Hotels (SIC 701, except 7013).—Establishments known as hotels, engaged in providing lodging, or lodging and meals, to the general public. Included are hotels operated by membership organizations, but open to the public, and apartment

hotels which provide accommodations for transients. Excluded from the Census are rooming and boarding houses, private residences commonly known as tourist homes, and apartment or residential hotels which provide no accommodations for transients.

# APPENDIX D

## EXPLANATION OF TERMS

Admissions (number).—See Motion Picture Terminology.

Admissions receipts.—See Motion Picture Terminology.

Concessions.—See Motion Picture Terminology.

Cooperative.—See Legal Form of Organization.

Corporation.—See Legal Form of Organization.

Employment size.—Analyses of selected services by employment size provide data for a maximum of 12 employment-size groups for establishments operated the entire year. For the purpose of these tabulations, an establishment is classified as an entire-year establishment if it operated 10 or more months during the year and was in operation at the end of the year. Seasonal establishments, which normally operate for only a part of the year, are treated as "entire year" or "not entire year" establishments on the basis of the length of time they were owned rather than the length of time they were open for business during the census year. Proprietors and unpaid family workers were not regarded as employees in determining the employment size of establishments.

The following employment-size groups are used in this volume:

- No paid employees
- 1 paid employee
- 2 paid employees
- 3 paid employees
- 4 or 5 paid employees
- 6 or 7 paid employees
- 8 or 9 paid employees
- 10 to 14 paid employees
- 15 to 19 paid employees
- 20 to 49 paid employees
- 50 to 99 paid employees
- 100 or more paid employees

Establishments.—Census of Business figures represent a summary of reports for individual "establishments" rather than "Companies." A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report in the Census was tabulated in accordance with the physical location at which the business was conducted. For purposes of the count of establishments, those which conducted business at some time during 1958 but went out of business before the end of the year are excluded; however, other data pertaining to such establishments are included in the tabulations.

Although the tabulations of the Census are on an establishment rather than ownership basis, in certain tables the establishment figures are grouped into ownership categories. This is the case in chapter 4, "Single Units and Multiunits" and in a planned company statistics bulletin covering company activities in all parts of the 1958 Censuses of Business, Manufactures, and Mineral Industries.

Where two or more activities were carried on under the same ownership at a single establishment, the entire establishment was classified on the basis of its major activity and all data for it included in that classification. However, when these activities were conducted by separate business entities, each entity was treated as an establishment. Thus, a leased department in a department store (such as a beauty shop) was treated as a separate establishment and is included in these tabulations on the basis of its activities rather than as a part of the store within which it operates.

Data in this report generally exclude figures for those locations of a multiunit organization which service, or are auxiliary to, the operating establishments of the organization, such as separate garages, administrative offices, etc. Information for this type of unit is included separately, however, in chapter 9.

Film packages for television.—See Motion Picture Terminology.

"Full workweek" employees.—"Full workweek" employees, whether regular or seasonal, who, for the specified pay period, were paid for working at least the number of hours typically worked in a week by employees of the reporting establishment. All other employees paid during that workweek were reported as part-workweek employees.

Guest rooms (hotels).—See Hotels and Motels Terminology.

### Hotels and motels terminology

Guest rooms (hotels).—Guest rooms consist of the number of separate hotel rooms (transient or residential). Suites of rooms were not counted as units but as individual rooms (e.g., a three-room suite was counted as three rooms).

Transient guest rooms consist of the number of rooms usually available for the occupancy of persons seeking lodging for short periods of time, usually less than a month, and generally subject to the regular daily or weekly rates.

Residential guest rooms consist of the number of rooms usually available for the occupancy of persons seeking lodging for a period of time, usually more than a month, and generally receiving reductions from the regular daily or weekly rates.

Percentage of occupancy.—This was computed by the respondent in accordance with the following instructions:

- a. Multiply the number of guest rooms in your hotel by 365. (If you operated less than a full year use the number of days you actually operated instead of 365.)

## SELECTED SERVICES—SUMMARY STATISTICS

## EXPLANATION OF TERMS—Continued

b. Determine the number of rooms which were occupied each day that you operated. Total these figures for all days operated.

c. Your percentage of occupancy is the number you get in "b" divided by the number you get in "a," multiplied by 100.

If records are not available as a basis for computing percentage of occupancy, your best estimate will be acceptable.

Rental units (motels and tourist courts).—Rental units consist of rooms, apartments, cabin units, and other types of lodging accommodations normally rented as a single unit.

Weighted average percentage of occupancy.—This item is derived by computing the average number of guest rooms occupied during the year (total guest rooms for each hotel multiplied by its percentage of occupancy) and dividing the sum of the averages by the total number of guest rooms in the group under consideration.

Example:

| Establishments<br>in the area | Number of<br>guest<br>rooms<br>reported | Annual<br>percent-<br>age of<br>occupancy<br>reported | Average number of<br>rooms occupied<br>during the year |

The weighted average percentage of occupancy for this group of hotels is 76 (550 divided by 740).

Individual proprietorships.—See Legal Form of Organization.

Legal form of organization.—Each establishment included in the 1958 Census of Business was classified into one of the following legal forms of organization:

1. Individual proprietorship.—These are establishments owned by one person.

2. Partnership.—These are establishments owned by two or more persons, each of whom has a financial interest in the business.

3. Corporation.—These are establishments owned by an organization or company legally incorporated under State laws.

4. Cooperative.—A cooperative establishment is defined as one owned by an association of customers of the establishment whether or not they are incorporated. In general, the distinguishing features of a cooperative are patronage dividends based on the volume of expenditures by the member, and a limitation of one vote per member regardless of the amount of stock owned. The establishments are open to the public as a rule, but generally are patronized primarily by members of the association operating the business.

5. Other legal forms.—These are establishments whose legal form of organization is not one of those defined above. Included in this legal form are estates, receiverships, joint ventures, etc.

#### Motion picture terminology

##### Motion picture film exchanges:

Operating expenses.—Consists of payroll, advertising, administrative, occupancy, and other expenses. Also includes their film rental payments to other film exchanges and to producers.

Operating receipts.—Consists of film rental receipts from exhibitors for United States and foreign theatrical and nontheatrical film, receipts from sale of movie prints and merchandise, receipts from rental of equipment, receipts from export operations, and miscellaneous receipts from customers. To avoid duplication of receipts this item does not include the reporting company's share of receipts from film rentals collected by others.

##### Motion picture production:

Operating expenses.—Consists of cost of materials and supplies, payments of rights and royalties, payments for laboratory work, payments to other producers for contract productions, payroll, and other operating expenses both inside and outside the United States.

Operating receipts.—Includes only receipts from outright sale of film, from film rentals received directly from exhibitors, and miscellaneous receipts other than from film rentals. Earnings from films which are distributed by film exchanges, whether independent or producer owned, are not included in receipts of motion picture producers. Such receipts are shown under "film exchanges." Only those producers' receipts from studio rental, laboratory work, loan of players, etc., which were not netted against expenses were included in receipts.

##### Motion picture theaters:

Admissions (number).—Consists of number of paid admissions during the year.

Admissions receipts.—Consists of the amount paid by theater patrons for admission, exclusive of any Federal, State, or local admissions taxes. (Such taxes are, however, included in total theater receipts.)

Rentals and concessions.—Consists of the amount received as space rental from operators of leased departments and concessions located in the theater, regardless of whether compensation was in the form of a flat rental or a percentage of the receipts. Also included is the theater owner's share of receipts of coin-operated machines operated by others at the theater. This item does *not* include receipts from rental of stores, offices, or apartments.

Sale of candy, popcorn, etc.—Consists of receipts from sale of candy, popcorn, soft drinks, or other merchandise *sold by the theater owner*, including sales and excise taxes on such merchandise. This item does *not* include either the total amount or the theater owner's share of receipts from the sale of merchandise by operators of concessions or leased departments located at the theater. The theater owner's share of such receipts is included in "rentals and concessions" receipts.

## EXPLANATION OF TERMS--Continued

Showings.--A showing or performance is defined as *ONE* presentation of a combination of one or more features and short subjects (cartoons, newsreels, etc.). Respondents were asked to determine the number of showings on the basis of the following instructions:

Suppose a theater, operating every day of the year, scheduled five showings for each Saturday, Sunday, and holiday and three for every other day. (Of the 365 days in 1958, 104 were Saturdays and Sundays. The remaining 261 included certain holidays.)

Suppose that there were 6 holidays that did not fall on Saturdays or Sundays. These 6 should be deducted from the 261 weekdays and added to the 104 Saturdays and Sundays, making 255 days with 3 showings and 110 days with 5 showings. The total number of showings would be calculated as follows:

$$\begin{array}{rcl} 255 \text{ weekdays} & \times & 3 = 765 \\ 110 \text{ Saturdays, Sundays,} & & \\ \text{holidays} & \times & 5 = \underline{550} \\ \text{Total showings} & & \\ \text{in 1958} & = & 1,315 \end{array}$$

Theater capacity.--Represents number of seats in the case of regular motion picture theaters and number of cars in the case of drive-in theaters.

Multiunits.--See Single Units and Multiunits.

Operating expenses (film exchanges).--See Motion Picture Terminology.

Operating expenses (film production).--See Motion Picture Terminology.

Operating receipts (film exchanges).--See Motion Picture Terminology.

Operating receipts (film production).--See Motion Picture Terminology.

Partnership.--See Legal Form of Organization.

Payroll, entire year.--Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind (such as free meals, lodgings, etc.) paid during the year to all employees. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Amounts received by employees as tips, etc., are not included in payroll. Payroll is reported before deductions for Social Security, income tax, insurance dues, etc.

Payroll, workweek ended nearest November 15.--This item consists of payroll, as defined above, which was paid to persons on the payroll in the pay period ended nearest November 15, 1958. Establishments whose payroll period was other than a week were requested to adjust the figures to a weekly basis.

Paid employees, workweek ended nearest November 15.--Paid employees consists of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

Percentage of occupancy.--See Hotels and Motels Terminology.

Proprietors of unincorporated businesses.--Includes owners or partners of unincorporated businesses who devoted the major portion of their time to the operation of the business.

Receipts.--Receipts include the total of all receipts from customers as a result of services rendered or merchandise sold during the year 1958 whether or not payment was received in that year. Excluded are amounts received from other sources than customers of the establishment, such as income from investments, rental of real estate, etc. They include the amount of local and State sales taxes, amusement taxes, or Federal excise taxes which are collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal taxing agency. Excise and other taxes which are paid by the manufacturer or wholesaler and passed along to the service establishment are also included.

The receipts figures, therefore, represent total receipts and sales of all establishments primarily engaged in the Selected Services. They do not include service receipts of retailers, wholesalers, manufacturers, and other businesses whose primary activity is other than in the Selected Services. They do, however, include receipts other than from service activities (e.g., sales of merchandise at wholesale or retail) by establishments primarily engaged in the Selected Services. Although the count of establishments as tabulated in this report represents the number in business at the end of the year, the receipts figures include receipts of all establishments in business at any time during the year.

Receipts size.--1958 Selected Services analyses by receipts size are designed to provide data for a maximum of 12 receipts-size groups for establishments operated the entire year. For the purpose of these tabulations, an establishment is classified as an entire-year establishment if it operated 10 or more months during the year and was in operation at the end of the year. Seasonal establishments, which normally operate for only a part of the year, are treated as "entire year" or "not entire year" on the basis of the length of time that the establishments were owned rather than the length of time they were open for business during the census year.

For purposes of receipts-size tabulations, the entire-year establishments have been classified into 12 receipts-size groups depending on the value of receipts and sales reported for the year 1958. These receipts-size groups are as follows:

|                        |
|------------------------|
| \$500,000 or more      |

## SELECTED SERVICES—SUMMARY STATISTICS

## EXPLANATION OF TERMS—Continued

As the class interval descriptions indicate, establishments were classified by receipts-size group after the reported receipts and sales figures had been rounded to the nearest thousand dollars. The method of rounding to the nearest thousand dollars differs from methods previously used in the Census of Business. In 1958, each report was rounded by striking off the hundreds, tens, and unit digits from the reported dollars. One thousand dollars was then added to half of the reports. This method is less costly and less susceptible to error than methods previously used, and does not cause significant differences from older methods.

Rentals and concessions.—See Motion Picture Terminology.

Rental units (motels and tourist courts).—See Hotels and Motels Terminology.

Sale of candy, popcorn, etc.—See Motion Picture Terminology.

Showings.—See Motion Picture Terminology.

Single units and multiunits.—An establishment is classified as a single unit if it is operated by a firm which operates only one establishment in a particular kind-of-business group. An establishment is classified as a multi-unit if it is one of two or more establishments in the same general kind of business operated by the same firm. The following listing indicates the kind-of-business groupings of selected service establishments made for this purpose:

| <i>SIC Code</i> | <i>Kind of business</i>                                 |
|-----------------|---|
| 701, 703        | Hotels, motels, tourist courts, camps.                  |
| 721, 727        | Laundry, dry cleaning, and related services.            |
| 722, 7399 pt.   | Photographic studios, photofinishing laboratories.      |
| 723, 724        | Beauty shops, barber shops.                             |
| 725             | Shoe repair, shoeshine, hat cleaning shops.             |
| 726             | Funeral service, crematories.                           |
| 729             | All other personal services.                            |
| 731             | Advertising.  |
| 73, except 731  | All other business services.                            |
| 75              | Auto repair, auto services, garages.                    |
| 76              | Miscellaneous repair services.                          |
| 78              | Motion pictures.  |
| 79              | Amusement, recreation services, except motion pictures. |

In these tables, figures are combined for single units of "one-establishment" firms and for single units of "multi-establishment" firms. A one-establishment firm single unit is a service establishment operated by a firm which operates only that one service establishment. A single unit of a multi-establishment firm is a service establishment of a firm which operates two or more service establishments, but no other service establishment in the same general kind of business as the establishment concerned. For example, a firm operates three service establishments: a barber shop, a television repair shop, and a motion picture theater. All three establishments are single units of a multi-establishment firm for Census purposes. Since each establishment is in a classification unrelated to the others, all three establishments are single units in the Selected Services tabulations.

Standard Metropolitan Statistical Area.—In addition to those for States, counties, and cities, Census of Business statistics are presented for standard metropolitan statistical areas. These are areas which have been defined and established cooperatively by a number of interested Federal agencies under the direction of the Bureau of the Budget for purposes of compilation and presentation of a wide variety of statistical data on a uniform area basis.

The general concept adopted in defining a standard metropolitan statistical area was that of an integrated economic area with a large volume of daily travel and communication between a central city of 50,000 inhabitants or more and the outlying parts of the area. This resulted in an area considerably more restricted, especially for the larger cities, than the "market" or "trading" area. Each area (except in New England) consists of one or more entire counties. In New England, standard metropolitan statistical areas have been defined on a town basis rather than a county basis. A complete statement of the principles adopted as a guide in applying this general concept to the definition of individual areas will be found in a document issued in 1961 by the Bureau of the Budget, Executive Office of the President, entitled "Standard Metropolitan Statistical Areas."

The 189 standard metropolitan statistical areas in continental United States and Hawaii for which 1958 Census of Business data are included in this volume are those defined by the Bureau of the Budget as of June 30, 1958. (See Appendix E.)

Theater capacity.—See Motion Picture Terminology.

Weighted average percentage of occupancy.—See Hotels and Motels Terminology.
